Dec. 2, 2020

Statement from Pigeon Forge City Manager Earlene Teaster

**Pigeon Forge Mass Transit Services Temporarily Suspended Dec. 3-16**

As the number of Covid-19 cases in our city continues to rise, it is necessary to temporarily suspend the operation of Pigeon Forge Mass Transit services, effective Dec. 3, 2020, through Dec. 16, 2020. This includes all trolleys and trams. Pigeon Forge Mass Transit administrative offices will be closed during this time, too. Over the next two weeks, all trolleys and offices will be thoroughly disinfected.

To notify passengers, signs are currently being placed at all trolley/tram stops. We understand the inconvenience and apologize for the short notice. Officials will monitor the situation with plans to return the trolleys to service on Dec. 16. We hope this provides a time of healing for employees and their families.

Meanwhile, ETHRA may be another transportation option. More information regarding scheduling and routes is available at [https://www.ethra.org/programs/16/public-transit/](https://www.ethra.org/programs/16/public-transit/) or by calling 1-800-232-1565.

Continue to do your part to keep our city’s residents, visitors and employees safe. Wear a mask, watch your distance and wash your hands. Your help is greatly appreciated.
