Hand Quilting

As part of Robin's SLOW STITCHING SERIES, hand quilting introduces students to the basics of needles, threads, marking, and more when Robin shows her methods of this timeless style of quilting. Yes, the process is slower but the feeling of pride and accomplishment is wonderful. There is such a meditative quality to feeling the fabric between your fingers and the repetitive stitch rhythm. I am always delighted when someone wants to be able to offer an heirloom piece of history to a friend or loved. Lots of tips and techniques that can be applied to other quilting endeavors. Beautiful examples show why this art shouldn't be lost.

Kit Fee: \$25 – Includes 12" square quiltlet, stencil, needle and thread.
