So much fun to receive a wide variety of black background prints when we trade with others in class. It is almost like a giant shop hop!

Block construction looks more time consuming than it is because this pattern features Klaudeen's Fudge Factor method of piecing perfect squares.

Choose bright squares in school colors, to match a personality or room, or just a variety of scraps. Solids or near solids will ease the 'busy' look.

Kit Fee: \$8.00 pattern fee payable to teacher in class. Fabric needs and equipment listed in supply list.
