Are your quilt blocks different sizes? Do your quilt tops shift? Do you have trouble finding a flat surface large enough and at a comfortable height to baste your quilt layers together? If you would like an easy way to make a large quilt that is flat, square and even, then this is the workshop for you. You will receive full instructions for completing all 3 techniques. You will learn in class how to assemble any size or multiple size blocks.

Discover how to prepare and assemble quilt blocks using this “Quilt-As-You-Go” method, which will permit you to see all your seams as you sew. A perfect way to create large quilted projects easily! You can measure the bottom, middle and top of your quilt and they will all measure the same. There will also be a dotted $\frac{1}{4}$ inch line to cut, which will also square you quilt. Add binding and you have a perfect quilt.
