**Pam Buda, Featured Instructor, Mokena, IL**

If it is true what they say...Do something you love and you'll never work a day in your life", then I go to play, not to work. Early in my career, I designed and patterned original soft cloth dolls, but now I devote my time to designing quilts and quilt fabric for Marcus Brothers. I started my company, Heartspun Quilts in 2004, featuring traditional blocks and quilts.

My love for early American history inspired me to create The Prairie Women's Sewing Circle club, which features anecdotal stories of American life in the 1800's, and small doable, affordable traditional style quilts that educate quilters about "making do"! I have been featured several times in *Primitive Quilts* magazine, *Quiltmaker* magazine, *Quilts and More* magazine, and in several quilt calendars. My quilt designs have been featured many, many times in *American Patchwork & Quilting* magazine. Nancy joined the Marcus Brothers Fabrics family as a licensed designer in 2010, and has been designing fabric for them ever since. My first book for Martingale Publishing, called *Vintage Patchwork* was released in October, 2018 and I just launched The Circa 1880 Club with shops around the world participating! I'm presently working on new quilt patterns, fabric lines and writing my second book. I thoroughly enjoy traveling, giving lectures and workshops to guilds, quilt shops, and on quilting cruises all over the United States.

**Patti Carey, Featured Instructor, Northcott Fabrics, Vaughn, Ontario, CA**

Patti is the Vice President – Public Relations for Northcott Fabrics, where she headed up the marketing/sample department from 1986 to 2012. This included coordinating Northcott's pattern program to support the new fabric collections, as well as liaising with the various quilting magazines, book publishers and quilt designers to provide current collections of fabric for editorial projects. Currently she travels to quilt guilds and shops to inspire and educate quilters with interesting and entertaining presentations on how fabric is designed, and how to use it to their best advantage. Her comprehensive line of quilt patterns utilizes efficient and time saving techniques. An avid quilter herself, Patti endeavors, to make a quilt from most collections that Northcott designs – approximately 50 quilts per year. These quilts are used as marketing tools by the sales reps, and as features in various quilting magazines. Visit with Patti at:

**Jacqueline de Jonge, Featured Instructor, Mariënberg , The Netherlands**

I have always been creative, but quilting has hooked me. To be able to work well at something you love is a miracle and a gift from God. I started my BeColorful pattern line in the Netherlands in 2004. BeColorful is now a family owned and operated business in the United States since 2007.

My quilts have been displayed worldwide and have won international awards. They are based on traditional designs but with a contemporary and colorful twist. In 2004 at the encouragement of my father, I entered the Open European Quilt Championship and won the Color Trophy. Since that year, I have lectured and conducted workshops throughout the United States, Canada, Australia, and Europe. Interview have ben published in several magazines and in 2011 I was

profiled and featured on the Ricky Tims and Alex Anderson online Quilt Show. I think my passion for quilting helps make me an encouraging and personable teacher. I love to share my enthusiasm for my designs with others and to bring them to a different and higher level where they can find their own artistic skills. I also show my students that quilts that may seem difficult in a picture are actually not that hard after all. [BeColourful.com](http://BeColourful.com)

**Vickie Johnson, Featured Instructor, Nancy, KY**

I began string quilting in 2014 after meeting Barb Sanders and Virginia Baker in Louisville, Kentucky as vendors and authors of *String Quilt Revival*. I was simply fascinated by their beautiful display of string quilts so, I purchased their book, a package of stabilizer and two individual patterns. I completed my first string quilt later in 2014 and was hooked. In 2018, I decided to teach a string quilting class using Barb and Virginia's book, but learned after contacting them, they had retired and were no longer having their book printed. As a result of this news, I began creating my own string quilt patterns and rulers for use in my classes and have since enjoyed teaching this style of quilting to all skill levels of quilters.
