DESCRIPTION

Join us this year, as once again, we make historical churches a major focus of our bus tours. Although they are old historical churches, they will be new to us, in that they are churches we have never been to before.

We will be going inside each church, hear some music, the history of the church and view some quilts from various church families.

In addition to the churches, we will also be guests inside a beautiful bed and breakfast, view a barn quilt and hear the story behind the rescue animals that they have on property. Plus, give you an opportunity to shop at an old time general store and take photos of a beautiful country mill.

We will also be making a lunch stop, which will be at your expense.

It's always fun to go "Pokin' Around the Smokies!"
