

Joyce Teng, Vendor Instructor, Houston, TX

Bio: Our business began out of our family garage. A family-run business for over 25 years, TSC Designs was founded in 1984 as Teachers Stamp Company., where we manufactured our own line of rubber stamps and other educational arts & crafts products. We later designed and produced brass embossing templates and other accessories for paper crafts & scrapbooking. In 2005, we retired and began to focus solely on providing unique and innovative products for quilters & sewers. Since 1990, we have worked with Tsukineko Inc. to provide the highest quality paper and fabric inks to our customers. During this 20-year relationship, we have helped thousands of creative minds develop new ways to “color” their world!
